

## SPEEDY SPEECH™ THERAPY PROGRAM DATA

The table illustrated below represents data collected from therapists in the East Ramapo Central School District using the Speedy Speech™ therapy program.

The participating students were in grades K-3 with single sound errors /s/, /r/, and //l/. The program was administered for 5-10 minutes, 4 times weekly, in a 1:1 ratio.

This data was gathered directly from participating Speech-Language Therapists through questionnaires and data tracking sheets.

School Year	# of Participating Students	# of Participating SLP's	# of months in therapy	Anecdotal Comments
2007 - 2008	6	2	5.5	Concept implemented. Portions of initial draft used with other generic word lists.
2008 - 2009	22	4	4.25	First draft of Speedy Speech™ formally implemented.
2009 - 2010	28	4	4.0	First published edition of Speedy Speech™ and therapy tool kit used.
2010 - 2011	47	12	3.75	First published edition of Speedy Speech™ and therapy tool kit used.
